Tools and Methods: Git, Postman, TDD

Experience - Web Developer Projects

Lynnwood, WA | Sept 2023 - Present

Movie App (Full Stack MERN and MEAN Stack versions)

- Developed a dynamic movie app from scratch, allowing users to explore and interact with a real-time movie database.
- Implemented search, filter, and detailed views for a more intuitive user experience.
- Optimized state management for seamless navigation and responsiveness across devices catering to all users.

Chat App (React Native, Expo, Gifted Chat library)

- Built a real-time messaging app utilizing Firebase authentication for secure and scalable communication.
- Enabled industry standard features such as tap & hold to delete or copy messages.
- Showcased mobile development expertise with robust backend integration.

Web App Template (React, Typescript, Material UI)

- Developed a versatile app template featuring starter apps for Ecommerce, Budget Tracking, Freelancing and Invoice Generation.
 - Designed a modernized, reusable user interface to streamline future project development.
 - Created a scalable codebase, allowing for rapid development of new applications without starting from scratch.
-

Education

Full Stack Web Development Certificate | CareerFoundry

Additional Experience

Mortgage Loan Consultant - *New American Funding*

Kirkland, WA | Aug 2023 - *Present*

- Tracked and analyzed daily activities to maintain up-to-date progress data, identifying workflow efficiencies and areas for improvement.
- Managed high-pressure situations, ensuring clients received tailored financial solutions within tight deadlines.

Mortgage Loan Originator - *KBHS Home Loans*

Bellevue, WA | May 2022 – Aug 2023

- Problem-solved financing challenges by finding innovative ways to restructure loan parameters and leverage builder incentives to overcome obstacles such as low appraisals.
- Collaborating through cross-functionality with sales teams to optimize home financing options for builder clients.
